Titan Enterprises Pushes Worldwide Flowmeter Sales Beyond Expectations

Liquid flow meter specialist Titan Enterprises,

has achieved a 33% increase in sales revenue over the last 2 years. With momentum continuing across the 3 key regions – UK, Europe and the USA – Titan looks set to reach a similar level by the end of the 2023/24 fiscal year.

A UK-based manufacturer

specialising in small-bore liquid flowmeters, Titan has developed an expansive [network of distributors](#) and partners around the world to extend its reach. With a strong market

presence in Europe, America, Australia and East Asia, Titan is meeting the international demand for its quality flow meter products across [key industries](#).

“We value our global partners

as they provide our international customers with local support and technical expertise. They also enable our flow measuring products to reach markets that might otherwise be restrictive, such as the USA,” says Jeremy Thorne, Operations Manager for Titan Enterprises.

In Europe, growth continues

to be strong despite the combined impact of Brexit, Covid, and sharp rises in raw material and energy costs. Titan’s robust and reliable [flow meter technology](#) is being utilised within innovative designs and development of products that have a direct impact on sustainability, waste reduction, alternative energy use and broader environmental and financial savings.

We continue to believe

in the fundamental strength of our business, heavily investing in R&D and manufacturing our [low-cost turbine meters](#) which contribute to 55% of global product sales. We will continue to invest in marketing and innovation **to drive sustainable long-term growth and broaden our product portfolio to meet customer needs, both with our standard flowmeter products and [OEM applications](#).**
